

Washington, D.C. 20505

Chen

National Intelligence Council

1 March 1985

NOTE FOR: Director of Central Intelligence

SUBJECT: New Materials, DCI Worldwide Briefing

1. The attached pages, taken from the revised draft of your Worldwide Briefing (of 1 March), constitute new materials additional to the earlier DCI Worldwide Briefing which Secretary Regan has seen.

2. These new materials concern subjects additional to the earlier version's emphasis on Soviet and Soviet weapon-centered matters. In brief, these new materials are quick surveys of principal problems for the US concerning international terrorism, Africa, East Asia, Europe, world economic issues, technology challenges, proliferating chemical warfare capabilities, and narcotics trafficking and politics.

3. Where applicable, the attached pages indicate where the other (largely Soviet) materials fit, in the total Worldwide Briefing paper.
